"if you follow the crowd, you will likely get no further than the crowd. if you walk alone, you're likely to end up in places no one has ever been before. being an achiever is not without its difficulties, for peculiarity breeds contempt. the unfortunate thing about being ahead of your time is that when people finally realize you were right, they'll simply say it was obvious to everyone all along. you have two choices in life. you can dissolve into the main stream, or you can choose to become an achiever and be distinct. to be distinct, you must be different. to be different, you must strive to be what no else but you can be."
